SCAN FOR THE INTRO MOVIE

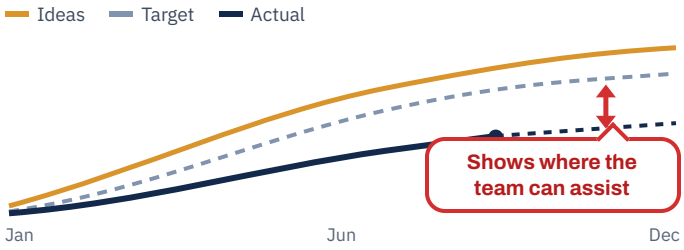

FREE · 1 month	FREE · for life	$499.00
For anyone who issues us an RFQ.	For landed clients, with all updates.	Or buy it outright.

ICT Global Savings Program · Every savings dollar, idea to audited result

V3.0 V2 · Access 2021+ · Fortune 500 audited

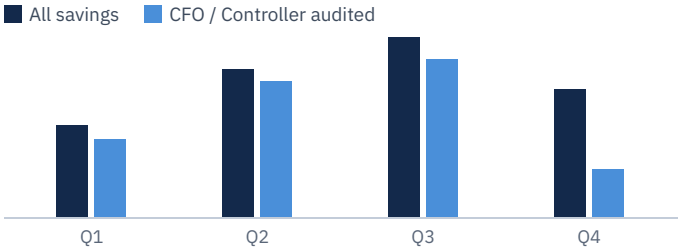

Glide Path vs Target

Each buyer's monthly glide path against target, rolled up to the department.

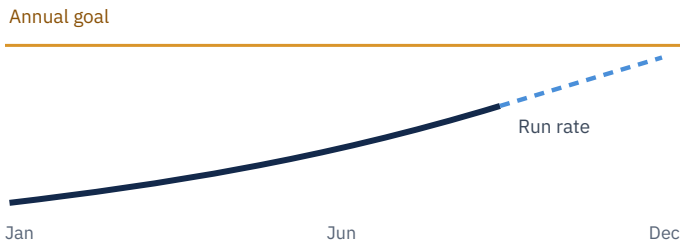

Audited by Finance

A CFO / Controller audit check on every savings line. Every chart shows audited vs. all savings.

Savings Trajectory

Year-to-date actuals plus the 12-month run rate show where the year will land.

Types of Savings Tracked

Turn each type on or off for every chart and report.

- Direct - VA/VE
- Direct - Supplier VA/VE
- Direct - Price Negotiations
- Direct - Rebate
- Direct - LTA
- Cost Avoidance
- Indirect - VA/VE
- Indirect - Supplier VA/VE
- Indirect - Cost Avoidance
- Indirect - Rebate
- Indirect - Price Negotiations

Piece-price (PPV) and rebate methods, with savings per piece and volume built in.

Import Everything

Load all your data from one folder in one click, or one table at a time. Export any table.

Who is IC&T?

Indiana Consulting and Trade is an American-headquartered, engineering-centric sourcing and supply chain partner. We source hard parts globally and domestically, manage the risk, and deliver from print to dock. **Give us your biggest problems, we will fix them.**

65+ yrs	32	$1.5B+	Worldwide
combined executive experience	countries of sourcing experience	in spend managed across our careers	full-time engineers: metallurgists, ME and QE

Solving manufacturing problems

ENGINEERING SOLUTIONS THAT SAVE YOU MONEY

Stackup issues on prints
Identify and correct tolerance and GD&T stackups before they cause costly problems.

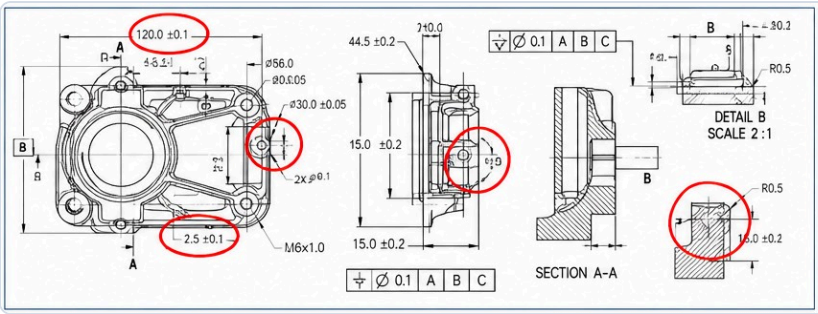

Porosity
Eliminate porosity through material selection, process improvement, and mold design optimization.

Machine fit ups
Solve fit, form, and function issues to ensure proper assembly and performance.

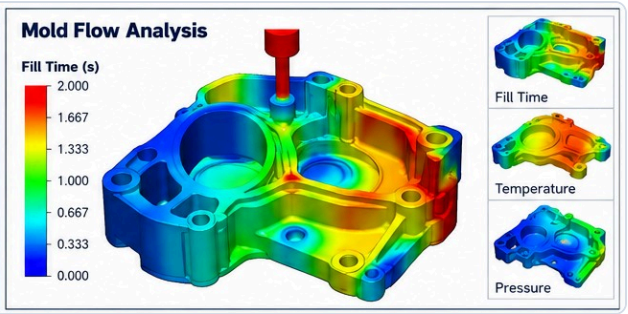

Recalls
Root cause analysis and corrective actions to prevent future recalls and protect your brand.

Poor quality
Improve quality, reduce scrap, and drive consistent production performance.

Saving you money
Lower total cost through smarter design, better processes, and fewer problems.

Print review: IC&T engineers flag tolerance and GD&T stack-ups before tooling is cut.

Mold flow analysis: fill time, temperature, and pressure checked to design out porosity.

BETTER PARTS · LOWER COSTS · STRONGER RESULTS

Proven in real industries: steering · seating · and more

What ICT does for you

- **Engineering Solutions:** Solving complex manufacturing challenges, print stack-up issues, porosity, machine fit-ups, quality failures, recalls, and process improvements while reducing costs.
- **Global Sourcing & Manufacturing:** Connecting companies with qualified global suppliers for machining, casting, forging, fabrication, and contract manufacturing.
- **Business & Operational Consulting:** Improving purchasing, supply chains, manufacturing efficiency, quality systems, and profitability through hands-on expertise.
- **Executive Recruiting:** Finding exceptional leadership and specialized talent who drive operational excellence, innovation, and business growth.

ONE HOLDING COMPANY · EVERY SOURCING OPTION

The Weathered Moose LLC owns both an offshoring company and a nearshoring company. We provide you all options.

Indiana Consulting and Trade
Offshoring

Quote both — get it right the first time.

USA Near Shoring
Nearshoring · Insourcing Division

COUNTRIES WE SOURCE FROM

In-country teams · feet on the ground

India — Metals

Mechanical engineers: #2 Worldwide
Metals / metal-goods exports: Top 10
Favorability toward USA: Favorable
Currency trend (INR/USD): Gradual depreciation
Focus: Sand & investment castings · CNC machining · Fasteners

China — Electrical

Mechanical engineers: #1 Worldwide
Metals / metal-goods exports: #1 Global
Favorability toward USA: Mixed
Currency trend (CNY/USD): Managed / stable
Focus: Electrical components · Assemblies · Injection molded housings

Taiwan — Precision & Electronics

Mechanical engineers: High density
Metals / metal-goods exports: Top 15
Favorability toward USA: Highly favorable
Currency trend (TWD/USD): Relatively stable
Focus: Precision CNC machining · Electronic sub-assemblies · Tight-tolerance parts

Thailand — Clothing, Electrical

Mechanical engineers: Growing pool
Metals / metal-goods exports: Top 40
Favorability toward USA: Favorable
Currency trend (THB/USD): Relatively stable
Focus: Textiles · Electrical assemblies

Indonesia / Malaysia — Medical

Mechanical engineers: Mid-tier
Metals / metal-goods exports: Top 30
Favorability toward USA: Favorable
Currency trend (IDR, MYR/USD): Mixed
Focus: Medical components · Regulated quality systems

Country indicators are directional. Confirm against current sourcing and economic data before relying on them.
